

INSTITUTIONAL SUBSCRIPTIONS

Educate PA knows it is the ultimate goal of any college or university to help their students and alumni find jobs in their field. For that reason, we offer subscriptions to colleges and universities across Pennsylvania which provides access to every public school teaching, counseling, administrative, and paraprofessional position available in the state. With an institutional subscription, your students and alumni will be in a better position to compete in today's highly competitive job market.

1

Institutional-Level Subscription

Commit to your school's success by providing access to Educate PA to all of your current students and alumni. Give them an edge in today's job market by providing them access to Educate PA's cutting-edge online system which provides each of them the ability to instantly view every public school job opening across the state.

The backing of accredited institutions in Pennsylvania that support our mission is of utmost importance to us. For this reason, the monthly subscription cost is highly discounted. The fee is negotiable based on a few factors, including:

- The number of students / alumni enrolled in the service
- The length of the subscription agreement

2

Institutional Sign-Up Program

No room in your budget this year to provide an Institutional-Level Subscription? No problem. Provide us with your student's (and alumni's) names and email addresses, and we'll handle the rest. Due to their association with your school, we will send each of them an introductory email with a special link to try Educate PA for one month absolutely **FREE**. It's our way of saying thank you for showing your commitment to their future success.

We would be honored to work with your college or university and would love to hear from you. We offer competitive rates that will be sure to fit in any budget and significantly help each of your students pursue their career in education. For more information on our institutional offering, please contact institutions@educatepa.com
